

JOINT INJURIES

AT PANAMA CELL THERAPIES (PCT)

Regenerative treatments with mesenchymal stem cells to restore your joints. Support for musculoskeletal injuries. Advanced approach to improve your mobility.

WELL-BEING AND VITALITY

They can differentiate into different types of tissue (bone, cartilage, tendons) as well as suppress inflammation.

BENEFITS OF STEM CELL THERAPY

- Stimulates the body's natural healing process.
- Reduces inflammation and relieves discomfort.
- Improves joint movement and function.
- Accelerates the recovery from injuries and degenerative diseases.
